COCKTAIL CHECKS IN GOULD TRIAL

Dozen Envelopns Filled With Bills Offered as Evidence.

WERE FOR "MANHATTANS"

Many Witnesses Testified to Mrs. Gould's Sobriety—Plaintiff Wins Additional Counsel Fee of $10,000 at Expense of Her Husband.

New York, June 23.—While counsel for Katherine Clemmons Gould brought up a reinforcement of witnesses in one part of the supreme court to combat the charges of intoxication and misconduct made by the defense in her suit for separation, with alimony, from her husband, Howard Gould, the plaintiff won a victory in another part of the court by a decision of Justice Geigerich.

He ruled that Mrs. Gould shall be allowed an additional counsel fee of $10,000 at the expense of her husband. An allowance of $5000 was made to Mrs. Gould last fall for the prosecution of her suit.

While this financial feature was being decided, Justice Dowling continued to hear the case proper. A hotel proprietor and a hotel manager, who denied knowledge of any undue intimacy between Mrs. Gould and Dustin Farnum, the actor, as the defense alleges; employes of Castle Gould, members of the crew of the Gould yacht Niagara, hotel chefs, hair dressers and seamstresses, who testified to Mrs. Gould's sobriety on all occasions that they could recall, constituted the bulk of the testimony of the reserve forces which were called by Mrs. Gould's lawyer.

James H. Brennan, who said he had been cashier at the Hotel St. Regis since it opened in 1904, testified that he had never seen Mrs. Gould under the influence of intoxicants while she lived there.

On cross-examination of the witness Brennan, Mr. Nicoll showed him a large number of checks for supplies at the St. Regis, which the witness said had been furnished to Mrs. Gould. The checks were signed by waiters at the hotel for Mrs. Gould and sent to her husband, who paid them, the cashier said. Mr. Shearn objected strenuously to the admission of the checks in evidence, but Justice Dowling overruled him and admitted them.

Bundle of Cocktail Checks.

There were a dozen or more large envelopes full of these checks, most of which were supplies during the fall of 1906. All the items on the checks which Mr. Shearn read were for Manhttan cocktails, with an item for "extra drinks" on the bottom. The great bulk of the checks were not read in court.

Leo Theimer, the head waiter in the main diningroom of the St. Regis, when Mrs. Gould lived there, testified that he had never seen Mrs. Gould acting boisterously in the diningroom, and had not seen Mr. Farnum dining with Mrs. Gould at the hotel.

"As a matter of fact Mrs. Gould took most of her meals in her apartments, didn't she?" asked Mr. Nicoll on cross-examination.

"Yes, I believe she did," the witness answered.

A chambermaid, a waiter and a seamstress who were attendants upon Mrs. Gould at various times all testified that she only drank an occasional cocktail and a little light wine with her meals. She was never abusive or boisterous, they said.

THE HYDRO-ELECTRIC PLANT.

Council Receives Report of Chairman of Committee on the New Plant.

At the regular semi-monthly session of the borough council Monday night President Judge was in the chair and the following members present; Kirk, Yerger, Grimm Beezer, Musser, Keller, Sheffer and Harper.

Chairman Harper reported the terms of settlement of the claim of George A Beezer against the boro of Bellefonte for alleged damages to his livery stable caused by the raising of the grade of Water street which left his stable down in a hole. This case was called for trial Monday afternoon before Judge Savidge. A jury was empaneled and the case was to go to trial Tuesday morning. The council agreed to the terms of settlement and of course that ends the case. Beezer will get enough out of it to raise his stable to the level of the street.

Chairman Grimm of the nuisance committee reported that the complaint in regard to the Martin Creamery on Thomas street running their waste water into the street had been remedied by the Creamery people connecting with the sewer.

The next question to be taken up was the much discussed new Water Works and Electric plant which the boro proposes to install at Milesburg. It was discussed at considerable length the report of the committee finally being accepted.

Chairman Musser of the Special Water Power Committee made the following report.

"Mr. F. W. Crider will purchase the "Green Mill Property" from the Borough, under the following arrangements, viz:

The hydro-electric plant to be installed thereon under boro supervision. The boro to have charge of contracts. Mr. Crider to enter into an agreement of lease with the Borough by which an annual rental is to be paid which will at the end of the term compensate Mr. Crider for the $28.800 which he is to advance with interest. On the completion of the contract he will convey the property to the Borough for the consideration of one dollar.

Therefore, your Committee recommends that the following bids be approved and contracts covering the same directed to be executed;

The bid of Rhoads & Knisely for all outside work around the power plant and materials for the dam, embankments etc. according to the revised specifications for the sum of $11.860.00

The bid of James Leffel & Co., for wheel and four gate hoists, complete, etc., F. O. B. cars Milesburg at the sum of $3400.00. His bid for the installation of same $290.00. Total $3,690 00.

Your committee further recommends that the pole line be erected under contract with Rhoads & Knisely the latter sum of $2,698.00

And your committee further recommends that the purchase of a pump be deferred at present."

In regard to the bids for the electrical machinery the matter was reported but was finally held over until next meeting.

The balance of the report the council seemed to be unanimously in favor of and it looks very much as though we would have a new electric plant before the snow flies.

Chairman Keller of the Finance committee submitted an ordinance prepared by the borough solicitor fixing a license tax for hacks, carriages, automobile hacks carrying passengers or baggage, The license runs from $1.00 a year up to $12.00 according to capacity. It was read but no action will be taken until next meeting.

The Finance Committee also offered an ordinance fixing a license fee for shows, circuses, exhibition and parades not conducted in a building constructed for such purpose. The fee runs from $2.00 to $40 according to the size of show or parade. This ordinance was also held over until next meeting night.

BANDIT ROBS BANK IN DAYTIME

Calmly Holds Up Cashier and Escapes With $8100.

LOST IN CROWD ON STREET

Police Reached Bank Five Minutes Later, But Robber Had Disappeared. Hold-Up Was the Most Daring In Texas In Recent Years.

Fort Worth, Tex., June 23.—In true frontier style a highwayman, described as genteel in appearance, robbed the branch banking house of the Waggoner Bank and Trust company in the heart of Forth Worth of $8100 in currency and escaped.

The robbery was the most daring attempted in Texas in years. Cashier Walter E. King was alone in the bank after closing time, balancing the business of the day, when a man walked in. As the man approached the window of the cashier's desk King looked into the barrel of a revolver.

"Make a move or a noise of any kind and I'll kill you," was the greeting Mr. King received.

The cashier complied and, seizing the roll of bills, the man backed out of the door, covering King with the revolver. King ran to a telephone as he saw the man walking down the street and mingling with the crowds with an air of unconcern.

The police reached the scene five minutes later, but the robber had disappeared. At the time of the robbery several hundred persons were near the building, and many noted the arrival at the bank and the departure of the man, but his manner was so bland that he did not arouse suspicion. Several persons declare that he climbed into a waiting automobile after walking several blocks, but the police place little credence in this assertion, and it is believed he is still in Fort Worth. Searching parties are out in force. An interurban car which left Fort Worth shortly after the robbery for Dallas was overtaken by officers in an automobile, but this plausible means of escape had not been utilized.

The loss to the Waggoner bank is covered by insurance. The bank, however, offered a reward of $1000.

The ceremony was performed by the Rev. Crow, of Hublersburg a Reformed minister, and took place on a platform slightly elevated on the lawn beneath the overhanging branches of old familiar apple trees. Over the bridal party were three arches of evergreen and blooming laurel. The wedding party came from the house to the strains of Mendelsohnn's wedding march, played by Miss Mae Harter, of Blanchard, on the piano at an open window, and the procession moved over a path of carpet to the altar in the presence of a hundred invited guests. The maid of honor was Miss Nora Clark, sister of the bride, and the bride's maids were Miss Nellie Kunes of Johnsonburg and Miss Nora Smith, of Lamar. The best man was Charles A. The natural beauty of the place along the creek at the foot of the high bluff and the lovely trees and lawn and display of white flowers and pretty white gowns made the scene more like a picture than a reality. The house was beautifully decorated within with ground pine

After the ceremony, delicious refreshments were served on the lawn where the guests were seated. The happy young couple left by carriage for Lock Haven where they took a train for Buffalo and Niagara Falls. There were many guests present from other places.

JEALOUSY MOTIVE OF SIGEL MURDER

Man Who Fled With Suspect Arrested at Amsterdam, N. Y.

GIRL LOVED TWO CHINAMEN

Police Believe Leon Ling Killed Miss Sigel Because of Her Friendship For Chu Gain—Girl's Body Quietly Buried.

New York, June 22.—After a bit of police flurry, an hour or two of unverified reports and telephoning between cities, the murder of Elsie Sigel, daughter of Paul Sigel, of this city, and granddaughter of Major General Franz Sigel, of Civil War fame, resolved itself into an unsolved crime again.

Chung Sin, who formerly occupied a room adjoining that where the girl's body was found, is held by the police at Amsterdam, N. Y., but what has been learned from him has served to clear up the case little, if any. At Schenectady the Chinaman arrested, at first thought to be Leon Ling or William L. Leon, who is sought as the girl's murderer, has, according to all indications, pretty well established that he is an unoffending Celestial, who formerly worked in a restaurant in New York, and whose arrest was brought about merely through a strikingly unfortunate resemblance to Leon Ling.

The disappearance of Chung Sin at about the time the murder was discovered here made the police eager for his apprehension, which was considered second in importance to that of Leon, but the interview with him at Amsterdam seems to have brought out nothing of value to the authorities. He maintains that he rarely associated with Leon, and while acquainted with Elsie Sigel knows nothing of the murder. Thus, with his arrest of no great import, the case, aside from developments in New York, is about where it was when Elsie Sigel's body was found in the trunk in a room over the Eighth avenue chop suey restaurant last Friday night.

Elsie Sigel Buried.

In the midst of all the police activity the body of Elsie Sigel was quietly buried in Woodlawn cemetery. As the father had announced that he wished to avoid any more publicity, the coffin containing the mutilated form was taken directly from the morgue to the burying ground in a plain undertaking wagon. The ceremony at the grave was strictly private and was attended only by her father, two brothers, Reginald and Theodore, and by her uncle, Franz Sigel.

Mrs. Sigel broke down completely when she learned of her daughter's death and is now in a sanitarium.

Jealousy Motive of Murder.

Theories as to the motive of the murder all coincide, as was indicated, on the jealousy of Leon Ling. That he killed her because of her apparent friendship for Chu Gain, who is still detained as a material witness, is still the predominant belief.

In support of this explanation, Mrs. Florence Todd, one of the most prominent women workers in Chinatown, who knew Elsie Sigel and her mother intimately, said: "I knew Chu Gain, who is under arrest, very well. He is one of the few Chinamen whom I would trust with my life. Mrs. Sigel and Elsie also knew him for many years. They were introduced to him through an uncle of his.

"I believe that Elsie was in love with Chu Gain, and would have married him, but that he would not marry her."

Here Mrs. Todd went into the most significant part of her statement, that bearing on Leon Ling. She said:

"Within the last year, despite her love for Chu Gain, Elsie became apparently infatuated with Leon Ling. But I think it was only a flirtation. He, I know, asked her to marry him, but she refused him. In fact, she told me that she refused him. Her mother knew all about it."

Although the mission in Chinatown where Elsie Sigel formerly taught has been closed, a meeting of Chinese who have been converted to Christianity was held in a Doyer street mission to discuss plans for raising a fund to be offered as a reward for the capture of Elsie Sigel's slayer. No definite sum was decided upon, but a committee will go through Chinatown soliciting subscriptions.

The Weather.

SHAW—HOSTERMAN.

Brilliant Wedding Ceremony at Centre Hall.

One of the prettiest weddings that has taken place in Centre County for some time was the ceremony which united in holy bonds of wedlock Charles F. Shaw, of Rochester, N. Y., and Miss Helen Hosterman of Centre Hall, which took place in the Reformed church at Centre Hall Saturday evening at 6 p. m.

The pretty little church was crowded when the bridal party entered to the strains of the wedding march as played by Christy Smith's orchestra from Bellefonte. First came the bridesmaids and ushers, then the maid of honor, then the flower girls and lastly the bride leaning on the arm of her father, Dr. G. F. Hosterman, who gave her away. They were met at the altar by the groom, and with the beautiful ring ceremony, they were united in marriage, by Rev. Daniel Gress, pastor of the church. The church interior was converted into a bower of beauty with flowers and potted plants. There were three hundred guests present at the church and everything passed off nicely.

The best man was Mr. Orrin T. Lee, of Maine. The ushers were old college friends of the groom with the exception of one, the brother of the bride. They were Milton Pratt Jones, of Ithaca, N. Y., Lowel Gable, of Wyebrooke, Chester county, Pa., John Baron, of Ithaca, N. Y., and Sumner V. Hosterman of Lancaster.

The maid of honor was Miss Mary Shaw, a sister of the groom from Rochester, N. Y., the bridesmaids were Miss Estie Ocker, of Lewisburg; Miss Kathryn Keller, of Ingram, Pa.; Miss Sarah Allshouse, of Greensburg; Miss Emma Shaw, of Rochester, N. Y.

The flower girls were Misses Carrie Mittenburg and Wilma Shutt, of Centre Hall. The bride who is a very pretty and accomplished young lady, was attractively attired in a costume of white Batiste over sick, and carried a shower boquet of lilies of the valley. The bridesmaids were becomingly attired in white.

After the ceremony a reception was held at the residence of Dr. Hosterman at which about one hundred and fifty guests were present. Sunday morning the bride and groom left on their wedding tour followed by the best wishes of a host of friends.

The groom is a graduate of Cornell University and is now a Professor at the Pennsylvania State College. The bride is the only daughter of Dr. Hosterman, and for several years taught school at Centre Hall.

They received a great many very pretty as well as useful presents from their many friends.

The groom left a note on the dining room table for his mother saying they were going away to be married. The groom was a school teacher and the bride is a daughter of merchant J. N. Everts, of Pine Grove Mills. Their wedding was quite a surprise to their family and friends.

REPUBLICANS NAME TICKET

Von Moschzisker, Stober and Sisson Nominated.

WM. E. CROW PRESIDED

The Platform Endorses the Administrations of President Taft and Governor Stuart and Declares For Tariff Revision That Will Insure Protection For Pennsylvania Industries.

Harrisburg, Pa., June 16.—The Republican state convention to nominate candidates for state treasurer, auditor general and justice of the supreme court, the latter to succeed Chief Justice James T. Mitchell, who will retire next January, was held today in the Majestic theater. Senator William E. Crow, of Fayette county, was elected chairman.

The following ticket was nominated without opposition:

For judge of the supreme court, Robert Von Moschzisker, of Philadelphia.

For auditor general, A. E. Sisson, of Erie county.

For state treasurer, J. A. Stober, of Lancaster county.

Cox Withdrew For Harmony.

The only incident that created excitement was the withdrawal of Speaker John F. Cox, of Pittsburg, as the slated chairman of the convention and the substitution for him of Senator Crow.

The withdrawal of Cox was due to a compromise with the backers of Senator John W. Crawford, of Allegheny county, the most active opponent of Senator Sisson for the nomination for auditor general. The partisans of Mr. Crawford had some differences with the speaker, and State Senator David A. Wilbert made a proposition to Senator Penrose to withdraw the name of Crawford if Mr. Cox would not be made chairman. The latter agreed to this proposition in the interest of harmony.

The names of Edgar R. Kiess, of Lycoming county; ex-Representative Beidleman, of Dauphin county, and Senator E. H. James, of Luzerne county, were not presented to the convention as candidates for auditor general.

The Luzerne county delegation withdrew the name of Judge Charles E. Rice, of Wilkes-Barre, as a candidate for justice of the supreme court. The backers of Judge George Crisswell, of Venango county, and James M. Galbraith, of Butler, took like action.

Strong For Protection.

The platform is a strong pronouncement for the "Pennsylvania idea" in the revision of the tariff as against the Iowa scheme for revision "downward," which Senators Penrose and Oliver are combating daily at Washington.

The Republicans of Pennsylvania are put squarely upon record as demanding that no change of schedules shall be made which shall in any way interfere with protection to American interests, especially the varied industries of the Keystone and neighboring states. In setting forth the attitude of the party upon this subject due recognition is given to the Pennsylvania members in congress who have stood for this policy.

The administrations of President Taft and Governor Stuart are strongly indorsed in a general way, and specific commendation is given the administration for various acts and reforms instituted.

The work of the legislature is dwelt upon and praise is given the large Republican majority in the senate and the house for meritorious legislation for the promotion of the forests, the development of good roads, notably the Jones township road bill, the protection of the health of the state, especially in the establishment of camps and hospitals for the care of consumptives, the generous appropriations to the public school system and to the hospitals and other charities of the state.

State Committee Meets.

The state committee held its usual session preliminary to the state convention. State Chairman Andrews reported that there were no contests, and the roll of delegates was made up. Chairman Andrews addressed the committeemen, congratulating them upon the promising outlook for the ticket this fall and the part Pennsylvania representatives have taken in framing the tariff bill. He gave special credit to Senators Penrose and Oliver. The chairman said in part:

"Fresh from the contest in Washington, I can assure you that when the tariff bill is perfected and finally awaits the signature of the president it will be found that no interest of Pennsylvania has been neglected and in which the manufacturer, the farmer and the workingman are so distinctly interested. As Pennsylvanians you have occasion to be proud of your state and of your representatives.

"The unanimity pervading the party ranks in Pennsylvania is due to wise leadership and which presages an orderly and enthusiastic convention, in which every delegate will be found ready to accede to the result and take his departure to his home with the purpose of doing all he can to insure the success in the November election of the candidates nominated."

Bordeaux, France, June 16. — Cardinal Andrieu, who has been summoned to court, charged with having incited a breach of the laws by the allocution he pronounced at the cathedral on the occasion of his enthronement, has sent a letter to the judge, in which he formally refuses to appear in court to answer any charge in connection with the separation law. The cardinal writes:

"That law became non-existent for Catholics the minute their supreme chief, the incorruptable guardian of the morals of individuals and nations, condemned it as inimical to the property, authority and liberty of the church."

MRS. CLEVELAND DENIES SIGNATURE

Says False Name Was Signed to Brandenburg's Article.

New York, June 16.—Mrs. Frances Folsom Cleveland testified for the prosecution in the case of Broughton Brandenburg, a magazine writer, who is charged with selling to the New York Times a political article purporting to have been written by former President Grover Cleveland.

Mrs. Cleveland was dressed in deep mourning, but was self-possessed, though pale, while on the stand. She

MRS. GROVER CLEVELAND.

declared emphatically that the signature to the article in question was not that of her husband. Also, she pointed out the differences between the signature and the genuine Cleveland signature as it appeared on several checks which were handed to her.

The former president wrote with a very unsteady hand during the later years of his life, the witness said, whereas the name signed to the Brandenburg article was written in a comparatively bold, legible hand, more like that of Mr. Cleveland during his younger days in the White House.

GOLFERS IN TROPHY PLAY

Chicago, June 16.—Golfers throughout the country and especially in the west are deeply interested in today's contests for the Tom Morris memorial trophy, played on the links of the clubs belonging to the Western Golf association.

Today is the birthday of the late Tom Morris, the famous professional golfer of old St. Andews, Scotland, for whom the trophy is named. The trophy was presented to the association last summer by Peter Dawson, of Glasgow. It is valued at $1000 and is an artistic piece of work in silver and copper, five feet high, with a solid silver figure of old Tom Morris at the base and another silver figue representing Victory at the top.

The teams are being played simultaneously by teams of eight on the links of nearly 125 clubs.

SAYS MRS. GOULD DRANK TO EXCESS

Witnesses Declare She Was Frequently Intoxicated.

COCKTAILS SERVED IN ROOM

When Witnesses Testified to the Alleged Violent and Profane Language She Used, Mrs. Gould Buried Her Face in Her Hands and Wept.

New York, June 16.—Torn with anger and extreme humiliation, alternately flushing with shame, sobbing or clutching her hands in exasperation, Katherine Clemmons Gould sat through a trying ordeal in the supreme court at the continuation of her suit for separation against Howard Gould, third son of the late Jay Gould.

It was a day of testimony for the defense, during which Mr. Gould's attorney sought to bring out through witnesses who had been associated with Mrs. Gould, that her habits were such that her husband was justified in leaving her. In the event of proving this, the defense hopes to undermine the charge of abandonment, the only phase of the plaintiff's case which has withstood the attacks of opposing counsel, Justice Dowling having ruled out the charges of cruelty and non-support.

Buried Her Face In Her Hands.

Witnesses for the defense recited the indulgence of this woman of fashion in the matter of alcoholic stimulants, and told further, while the heavily veiled Mrs. Gould buried her burning face in her hands, of certain remarks and conversations not exactly in keeping with $500 gowns and the palatial Castle Gould on Long Island.

It was during this testimony concerning some of the alleged violent and profane language, some of it as related too strong to be printed with propriety, that Mrs. Gould wept most.

Specific statements that Mrs. Gould had been intoxicated on various occasions, that she called Howard Gould "you little hound" one night, that once she was apparently so under the influence of liquor as to stagger against the banister at Castle Gould, that her maid brought liquors to her room, including some times two cocktails before breakfast, were among the statements brought out as employes of the Gould estate related on the stand their experiences with their former mistress.

Said She Couldn't Walk Straight.

Whether or not fit for managing a household, it was a rather erratic administration that Mrs. Gould conducted at Castle Gould, according to most of the testimony. Verbal clashes with the manager of the great estate, heated arguments at the hencoop with carpenters, one of whom testified that she "couldn't walk straight" at the time; a period when she remained in her room for two weeks, consuming during that time seven bottles of brandy with other liquors—these incidents and others were sworn to on the stand. Also, there was an account by a former steward of an exciting night when, he said, she wanted the house locked, although Howard Gould was out on the front lawn. This, said the steward, did not seem to appeal to Mrs. Gould as an argument against closing the front door, and she told him to go ahead and lock up. To appease her, he testified, he shut the door but did not lock it.

This was the night that Mrs. Gould is said to have called her husband "little hound," a term which she applied to him, as testified, after he had come to her room to see what the matter was, confusion having been spread through the great castle by the ringing of bells in Mrs. Gould's room and the burglar alarm system.

Kingston, R. I., June 16.—"We have seen the last of cheap bread in this country," said Eugene Davenport, the dean of the University of Illinois, at the graduation exercises of Rhode Island State college.

COP, BITTEN BY MAD DOG, DIES OF WORRY

Attacked by Animal While Trying to Kill It.

New York, June 17.—Fearing that he would go mad with the rabies after being bitten by a mad dog in September last, John H. O'Donnell, a Brooklyn policeman, is dead. On Sept. 23 last a watchman approached O'Donnell and told him that a big wolfhound which he supposed was mad was in the apartments on the second floor. O'Donnell attempted to get the dog out to kill it, and in doing so was bitten on both hands.

The doctors at the Pasteur institute said the dog was suffering from the rabies. O'Donnell was advised to go to the institution for treatment, but he refused to do so. Several days afterward O'Donnell began to feel ill. He obtained a leave of absence of sixty-four days and went to a sanatorium, where he died. It is thought by his friends and relatives that the fear he might die of rabies caused O'Donnell to worry himself to death.

SAVE US, SAY LIQUOR MEN

Wholesalers Demand Release From Political Grafters.

"We shall be in a position to say to the American people we demand that the Anti-Saloon league get out of politics and thereby allow us to do the same.

"We demand release from the grasp of political grafters and request the assistance of every fair-minded man in our efforts to drive out of the saloon business that element which has brought it into disrepute."

1902 COAL STRIKE COST $34,000,000

Statistician For Companies Admits Big Profits.

MINERS GOT $17,000,000

Advance In Prices Under the Sliding Scale Nets Operators an Equal Amount—Railroads Selling Coal In Brooklyn Kept Informed of Amount of Business Done by Rivals.

New York, June 18. — Anthracite railroads selling coal in Brooklyn have been kept informed of the amount of business done by their rivals since 1901 and the prices paid for the coal, according to evidence given in the government's suit, charging the roads with maintaining an illegal combination.

W. W. Ruly, statistician for the anthracite companies, testified that he had made the reports for the last eight years. Brooklyn, he said, had been a strong competing market.

"Since you began to furnish these reports the price of coal in Brooklyn has become uniform and the cutting by competition has ceased, no doubt of that, is there?"

"No, I believe not."

Mr. Ruly was questioned as to the working of the agreement following the settlement of the strike of 1902 through the intervention of President Roosevelt, by which the miners were to receive a 1 per cent increase in wages for every five-cent advance above $4.50 a ton made by the mine owners.

"For every dollar of this excess paid by the companies to the miners," asked Mr. McReynolds, "how much did the public pay to the companies?"

Mr. Ruly would not venture an official opinion, but when pressed admitted that in all likelihood the companies received at least as much from the increase in prices as did the miners.

"So that if labor received $17,000,000 more in wages since the strike of 1902 and the operators benefited equally, the public must have paid $34,000,000 more for coal?"

"I suppose so," the witness admitted.

FIRE AT BRITISH SHIP

Damaged by Russian Projectile Near Meeting Place of Emperors.

Viborg, Finland, June 18.—The British steamer Northburg has been fired upon by a Russian torpedo boat for approaching too close to the bay on the Finnish coast where Emperor Nicholas and Emperor William met.

The Northburg was hailed and fired upon off Wirolahti, Island of Biorke. The projectile pierced a steam pipe and one member of the crew of the English vessel was wounded. The incident shows the extreme nervousness for the safety of Emperor Nicholas, even at sea.

Russian torpedo boats have been patrolling Pitkipas bay, the rendezvous of the two emperors, and it was one of these guard vessels that fired on the British ship.

A Great Achievement.

A record achievement in the movement of a heavy freight train has been accomplished on the Pennsylvania Railroad between Altoona and Enola, near Harrisburg, Pa. To determine what could be done in actual road service, as the result of some of the company's recent expenditures for improvement, a 85 steel gondola cars loaded with a total 4,451 tons of coal were on Monday, June 14th, attached to locomtive No. 1113, a freight engine of the most improved type.

The total weight of the train was 6,151 tons, and its length from the pilot of the locomotive to the rear platform of the cabin car was 3,000 feet—nearly three-fifths of a mile. The run of approximately 124 miles was made in 7 hours and 15 minutes, the average speed of the train being about 17 miles per hour.

The Company had made a number of road tests previously, but the performance of the 14th surpassed all others. The heaviest trains moved between Altoona and Enola, prior to this record run, were all handled during the month of June, the results being as follows

Date	Engine No.	No. of cars
June 8	3212	75 Steel
" 8	2903	75 "
" 8	451	75 "
" 3	3213	85 Mixed
" 5	1641	86 "
" 8	2905	87 "

Total weight of train	Time
5307 tons	10 hrs. 21 min.
5348 "	8 " 2 "
5348 "	10 " 12 "
4852 "	12 " 30 "
4922 "	9 " 42 "
4623 "	10 " 21 "

These runs were made possible by the fact that the Company has now reduced all grades and compensated all curves on the "Middle Division" of its main line between New York and Pittsburg, so that the ruling grade there is only .3 of one percent. or less than 17 feet to the mile. The last step in this scheme of improvement was taken lately in the opening to service of the four tracks involving radical revisions of grade and removal of curvature for the 11 miles between Mt. Union and Ryde.

Formerly, it was necessary to have a "pusher," or extra locomotive, help long freight trains over the heavy grades. Now, it is possible for for single locomotives unaided to accomplish these record results.

Punxsutawneyities are Making Preparations for Monster Old Home Week Celebration.

Punxsutawney, Pa., June 17th.—Never in the history of this city has as much energy been put into a project as is being devoted to making "Old Home Week," August 22-28, inclusive, a big success. Every man in the town is bending his energies toward the prospective celebration, and the slogan is the "Biggest Time in Western Pennsylvania." If money, time and brains can do it, then the success of the celebration is assured, for 400 men, who are serving on the various committees are devoting every minute of their spare time to accomplish this end.

Those who at any time lived in Punxsutawney, and would wish to see what wonderful progress has been made in recent years, could hardly select a better time than Old Home Week for doing so. There will be something doing every day in the week, and every minute of the day. While the program has as yet not been finally completed, it has advanced far enough to give an inkling of what is to come. Among the most prominent features will be two Marathon races, Parade Day, Punxsutawney Day, Groundhog Day, Educational Day, etc. On Parade Day it is expected that not less than 5,000 people will be in line, representing various lodges throughout this section. Three lodges, in fact, have already assured the committe that each will have a thousand men in line, and all the others are working to the same end. All the local lodges have decided to keep open house during the week, together with all the principal clubs.

Toughs Stone Employes of Robinson's Circus.

The John Robinson circus people had a hard time of it in Mt. Carmel, the result of the enmity of rowdies. One of the attendants, a mere boy, was stabbed in the face, stones were thrown at the workmen, and several fights resulted.

The worst act however, was performed by a number of men, who, not content with doing all the bodily injury they could to the circus men, cut the air hose of one of the circus cars, which but for the timely action of one of the car inspectors would have resulted in a serious wreck and probably the loss of many lives. The circus management and attendants earlier in the evening caused the enmity of a crowd of rowdies, putting out a Mt. Carmel youth who attempted to crawl under the tent.

The crowd began stoning the attendants and did lots of minor damage. They waited, however, until the train was ready to start for Shamokin before they wreaked their vengeance on the circus people.

LINER RAMS BRITISH CRUISER

Crew of the Sappho Taken Off By Life Savers.

DISCIPLINE SAVED THE CREW

Crash Occurred During a Fog, and Although Seriously Damaged the Cruiser Was Towed to Dover and Beached—No One Was Injured.

Dover, June 21.—A serious naval disaster was narrowly averted Saturday night, when, in a dense fog, the Wilson liner Sappho collided with the British third class protected cruiser Sappho, off Dungeness. The blow struck by the liner was at an angle, or the cruiser probaly would have been cut in two.

The liner was practically undamaged and proceeded on her voyage. The cruiser was seriously damaged and has been beached here.

The cruiser had just been commissioned for maneuvers. She carried a crew of 270 officers and men. When it was discovered that she was making water rapidly the bulkheads were all closed, signals were sent up and minute guns were fired.

Two lifeboats from Dungeness, aided by the cruiser's boats, safely transferred 200 of the crew to the shore. The others, with their officers, remained aboard.

Gradually the water flooded the cruiser, quenching the fires and extinguishing the electric lights. The cruiser lay helpless until 2 o'clock in the morning, when tugs arrived from Dover.

By the aid of the pumps and collision mats the Sappho was put in condition to weather the trip to Dover, to which port she was successfully towed and beached in the naval harbor. None of the crew was injured.

The warship will be patched up and refloated, after which she will be taken to Portsmouth for repairs.

The Wilson liner came upon the Sappho without warning, appearing suddenly through the dense fog. The crew displayed remarkable discipline. The liner tore away the port seaboat from the cruiser and rebounded. She passed by the cruiser's stern and was swallowed up by the fog and was not seen again.

The captain of the liner Sappho has sent a dispatch to the owners that his ship was not damaged in the collision with the cruiser Sappho, and that he is continuing the voyage.

It is impossible to say whether it was a warship or a merchantman.

The adoption of a general monument for the purpose is due to the fact that it has been found impossible because of imperfect records to place a distinctive headstone at each individual grave, as contemplated by the act of congress.

TAFT'S IDEAS

There is no doubt about where President Taft stands in the matter of the income tax.

In his message to Congress on Monday the President asked that a joint resolution be adopted by two-thirds of the members of both houses of that body requesting the various State Legislatures to agree to an amendment to the Constitution which would enable the Federal Government to lery and collect an income tax.

There is no backing nor filling there. It is a plain and outspoken statement of where the President stands. He is for an income tax, but he wants to go about the matter in a lawful way.

President Taft recognizes the fact that the Supreme Court of the United States has decided against an income tax. He does not purpose advocating the passage of such measure, knowing that the court is against it and has already ruled that it is unconstitutional.

His way of attending to the point is to go about it in a business-like and regular way, if his words are taken there will be an appeal to all the State Legislatures to give the Federal Government the right to do this thing and then there can be no question about it.

Again, this is an appeal to the people for their expressions of opinion upon it. The various State Legislatures may be taken to represent the views of the people of the country. The members of these bodies are elected to represent as lawmakers the entire populations of the States and the people will not send representatives to the Legislature who favor such a tax if they do not want it.

Thus it is clear that if the Legislatures do what the President requests Congress to have them do the people will be for an income tax and they will give the government the right to levy it, which the government can then proceed to do. This is a splendid way of dealing with this matter and what is more it is an honest and fair way. It gives the people the right to decide the whole question.

The President also proposes a tax on the incomes of the corporations which will go far to show that he does not favor unfair advantages for these corporations.

The claim that the tariff gives them great advantages will be offset by the fact that their net incomes are taxed 2 per cent.—that is, if the President's recommendation is adopted.

This message of the President is direct and to the point. There is no wasting of words. It means exactly what it says and what it says is clear to all who read.

CONGRATULATIONS FOR VON MOSCHZISKER.

It is particularly gratifying to the many thousands of enthusiastic friends of Judge Robert von Moschzisker to observe the splendid way in which his nomination for the bench of the Supreme Court of Pennsylvania is received.

There has been universal assent to the proposition that this young and brilliant jurist will be a distinct credit to the high position to which he has been called—for his nomination is equivalent to an election—and it is the heartily expressed wish of many thousands more that the career which is now opening to him will be all that the wonderful promise of his success on the bench of the lower court warrants and confidently predicts.

Congratulations are pouring in upon the nominee and there is such a fine tone to them all, such a ring of genuineness, that it presages well for the full fruition of all the fond hopes and good wishes expressed.

Judge Charles E. Rice whose name went before the Convention for the nomination, is among those who give their hearty good wishes and Judge Ralston, whose excellent work on the Common Pleas Bench of Phila. made him prominent in the discussions regarding the nomination, has also sent his congratulations. From the well beloved Governor of the State comes the following outspoken letter:

"Commonwealth of Pennsylvania."
"Executive Mansion, Harrisburg, June 17th 19 9,
"Honorable Robert von Moschziker, Philadelphia, Pa.
"My Dear Judge:—Accept my congratulations upon your nomination, and my sincere wish for your successful and honorable career as justice of the Supreme Court of Pennsylvania. I am confident that your record in that court will fully justify the highest expectations of your many friends.
"With assurance of personal regard and esteem, I remain. Yours sincerely,
"EDWIN S. STUART."

It is quite apparent that a splendid nomination has been made in the person, of Judge von Moschzisker and one which will rebound to the success of the whole ticket and to the glory of the party in the State as well as to the advantage of the exalted position to which the Philadelphia jurist is about to be called.

Dr. Miles' Nervine has cured thousands of such cases, and will we believe benefit if not entirely cure you. Try it.

"My nervous system gave away completely, and left me on the verge of the grave. I tried skilled physicians but got no permanent relief. I got so bad I had to give up my business. I began taking Dr. Miles' Restorative Nervine. In a few days I was much better, and I continued to improve until entirely cured. I am in business again, and never miss an opportunity to recommend this remedy." MRS. W. L. BURKE, Myrtle Creek, Oregon.

CONFESSES LEON STRANGLED ELSIE

Chung Sin Breaks Down Under "Third Degree."

TELLS HOW GIRL WAS SLAIN

Peered Through Transom and Saw Victim Lying on the Bed, With a Bloody Towel Over Her Mouth. Says Leon Said She Bit Her Tongue and Bled to Death.

New York, June 23.—Baited and intimidated by detectives, threatened with prosecution and confused with rapid-fire questions, Chung Sin, one-time roommate of Leon Ling, told of Elsie Sigel's murder. Under the terrific pressure of the "third degree" the little Chinaman admitted that he had seen the body in Leon Ling's room, that he had touched it while it was still warm, that he had smelled drugs and had watched Leon Ling's preparations for placing the body in the trunk where it was found horribly decomposed last Friday night.

Chung Sin in fact described almost everything concerning the murder of Major General Franz Sigel's granddaughter, except the actual commission of the crime. He denied any implication in it and protested stoutly that he was ignorant of the whereabouts of Leon Ling, the supposed murderer. After the inquisition he was held in $10,000 bail in the house of detention to await the inquest.

Chung Sin was arrested at West Galway, N. Y., a small hamlet near Amsterdam, and was brought to New York. Immediately after his arrest up state and all during the trip by train to this city he was plied with questions, bullied, persuaded and entangled in a mass of significant questions. He was told that Leon Ling had been captured and had laid the blame upon his (Chung Sin's) shoulders. This, together with the persistent hammering at the prisoner, brought the confession.

Girl Was Drugged and Strangled.

From the man's story it is apparent that Elsie Sigel first was drugged with chloroform and then choked to death. She was killed apparently on the night of June 9, although Chung Sin appeared a little mixed in his dates. But he says that early in the morning of June 10 he heard a strange noise in Leon's room, adjoining his, and, looking over the transom, saw the girl lying on the bed, with a bloody towel over her mouth. He passed through the room, he says, to go out to wash his hands, and as he did so felt of the body, which was still warm. After that he went down to the chop suey restaurant below, then returned to the room. Leon in the meantime had covered the body with a blanket up to the chin and had pulled a trunk to the middle of the floor. The trunk Leon was calmly emptying preparatory to placing the body therein. The rope with which the body was bound was lying on the floor at the time, according to Chung Sin. Once again he went down stairs, said Chung Sin, where he remained until Leon called him. When he entered the room the body was not visible, having been bound with the rope and placed in the trunk.

At this point of the story the Chinaman was asked savagely if he had not assisted his pal in putting the body in the trunk. Chung Sin started perceptibly, but said that he had no hand in it.

Leon Said She Bled to Death.

"I didn't see her no more," said Chung Sin, "and when I asked Leon how she died he said she had bitten her tongue and bled to death." Leon told him, Chung Sin added, that he was going to send the trunk to Jersey City, thence to Europe. As a matter of fact, it lay untouched in the stuffy little room until Sun Leung, proprietor of the restaurant below, noticed the odor about the building and summoned the police.

Despite repeated interrogations Chung Sin declined to say just what happened in the room when the girl was murdered. He admitted having heard a scuffle in the room during the night, and told of Elsie having arrived on the previous afternoon, the day when she disappeared from her home. "Did Leon take her there or did she go of her own accord?" he was asked.

"She went there alone," he replied.

"Was she in love with Leon or Leon in love with her?" was another question. At this Chung Sin relapsed into silence and then only smiled and shook his head. He indicated, however, that the girl had sought out the Chinaman.

The confession served but to clinch the already prevalent belief that Leon Ling killed the girl, who became initiated into the ways the Chinese live through her mother, who now has been taken to a sanitarium, crazed with grief. It does not, however, so far as can be learned, throw any light as to where the murderer is at present or the route which he took in his flight from the city.

Suspect at Johnstown.

Johnstown, Pa., June 23. — Local Chinamen have notified the authorities of a strange Chinaman alighting from a westbound train. He refused to give his name. His description tallies largely with that of the Sigel girl's slayer. It is believed the stranger boarded an electric car for Windber. Officers have taken up the search.

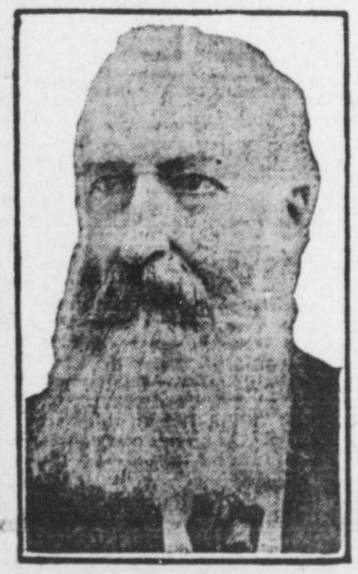
SAY KING LEOPOLD IS READY TO ABDICATE

It is Believed Belgian Ruler Will Move to Paris.

Brussels, June 23.—What is deemed confirmation of the report that King Leopold is shortly to remove to Paris for future residence, thereby abdicating the throne, developed in the arrival from Paris of an expert on art values, who began taking an inventory of every piece of furniture in the royal palace.



KING LEOPOLD.

This, it is believed, is preparatory to the offering of the furniture for sale. The thoroughness with which the inventory was made indicates that the palace will be literally stripped.

Leopold has already disposed of many of his paintings and art treasures, having only enough left, it is declared, to furnish his contemplated Paris house.

The Belgians are furious at the prospective despoiling of the palace, as it is taken for granted that the king will pocket the proceeds of the sale, just as he did when he sold his paintings and art works.

Regarding his future plans Leopold is silent. He is seventy-four years old. There seem to be grounds for the report that he is tired of public life and wishes to retire.

Claycomb returned home late at night and found Feeney in the house. Claycomb drew a revolver and in the ensuing struggle it was discharged, the bullet entering Feeney's head. The defense was based on the unwritten law, and the jury approved it.

S. D. Tice and son last week adopted a novel plan of hauling paper wood to the railroad. By using a large truck which they had constructed for such purposes they could load about four cords and this was hauled with their traction engine. They made about 2½ trips a day on the average and in this manner transported about ten cords a day at a much less expense than it could have been done with teams and wagons.

A Large Contract

When C. M. Parrish the enterprising druggist, first offered a 50 cent package of Dr. Howard's specific for the cure of constipation and dyspepsia at half price and guaranteed to return the money if it did not cure. He thought if probable from his experience with other medicines for these diseases, that he would have a good many packages returned. But although he has sold hundreds of bottles, not one has been brought back.

C. M. Parrish wants every person in Bellefonte who has constipation, dyspepsia headaches, or liver trouble to come to his store or send 25 cents by mail and and get 60 doses of the best medicine ever made at half the regular price, with a personal guarantee to refund the money if it does not cure.

To those suffering with dizziness, headache, poor digestion, constipation and straining. Dr. Howard's specifice offers quick relief. It is an invaluable boon to all who feel uncomfortable after eating, and is today the popular dinner pill in all the large cities.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c. per bottle Take Hall's Family Pills for constipation.

"It is the little rift within the lute which everwidening, makes the music mute." It is just a little rift in the health of a woman often, which gradualy takes the spring from her step, the light from her eyes, the rose from her cheek and the music from her voice. Perhaps the bug-bear which has frightened the woman from the timely help needed at the beginning has been the dreaded questions, the obnoxious examination, the local treatments, of the home physician. There is no need for these. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every women, suffering from what are called "female troubles," to renew the health and cure the disease. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy cheeked," but it gives them back the vigor and vitality of youth. This is not a "patent medicine" but a prescription of known composition in which pure, triple-refined glycerine is used instead of alcohol. Each bottle-wrapper bears a full list of ingredients upon it.

Suggestive Questions on the Sunday School Lesson by Rev. Dr. Linscott for the International Newspaper Bible Study Club.

June 27th, 1909.

Temperance Lesson. Rom. xiii: 8-14.

Golden Text—Put ye on the Lord Jesus Christ—Rom. xiii. 14,

Verse 8.—Is it always sinful to go into debt, when you have no visible means of paying it?

Is it right, or wrong, to go into debt when you have nothing to pay with, if your creditor knows your circumstances?

Is a business man who has honestly failed in business and given up all he has to his creditors, under moral obligation to pay the balance of the debt, if he makes enough money to do so out of future business?

Under modern business conditions, and the law of love and righteousness, when wholesalers sell on time, or give an adequate discount for cash to retailers why are not the debts of an honest bankrupt retailer, the legitimate loss of his creditors in common with himself?

Wherein consists the folly and sin of a wage-earner in constant work, getting into debt?

Is it the duty of everybody to love everybody, the bad and the good, enemies and friends?

What is the advantage of loving everybody, to ourselves, and to those whom we love?

Verses 9-10.—Give reasons, outside of the Bible, that will cover all circumstances, why it is always wrong to disobey these five moral prohibitions. (This question must be answered in writing by members of the club.)

Must all such acts, as are here forbidden, contravene the law of love to make them sinful; for example, if you had to kill a man who was about to kill one of your loved ones would that be sinful?

Can an act be wrong that works out for the good of all parties?

Verses 11-12.—If you had to die inside of a month, what effect would that have upon your intentions and actions, so far as God is concerned; and if it would change these in the least, does that not prove that you are now living wrong and are in danger?

Most people are morally and spiritually asleep, and many are far into the night; what are the conditions which should suddenly startle such into full consciousness, as to their danger, and their duty?

Verse 13.—How is it that the night is the time selected for so many bad deeds?

Should a man ever do a thing which he is ashamed for his best friends and and neighbors to know?

Does the popular conscience generally, or always represent God's attitude to a thing; or are there some things God may be pleased with which the community would condemn as wrong, or vice versa?

How is it that bar rooms are generally screened off from the public gaze?

Why is it a crime for a man to get drunk?

Why do most drunkards get drunk in the night, or away from public gaze?

Does the drink habit generally lead to the other four grave evils mentioned in verse thirteen?

Verse 14.—What is the sure remedy for the drink habit, and all kindred evils of the flesh?

Does putting on Jesus, always mean putting on strength so we can control all the passions of the body, and the ambitions of the soul?

The race will be sailed under the auspices of the New York Athletic club as a repetition of last year's very successful contest. The distance is 100 nautical miles, equal to 115 land miles.

WILL BE AMERICA'S GREATEST SONGFEST

Six Thousand Voices to Be Heard In Chorus In New York.

New York, June 19.—For size and distinction the musical festival which will begin tonight in Madison Square Garden, to last four days, has probably never been rivaled in America. The men in charge of the festival declare that never before has there been assembled in this country so great a number of singers to interpet the works of the masters of the musical art.

Among the prominent featues of the festival will be concerts rendered by a male chorus of 6000 voices and an orchestra of 100 pieces. A special feature will be the contest open to the singing societies of the United States competing for the famous "kaiser prize," a statue donated to the United Singers of New York by Emperor William.

For the first time in the history of music festivals in America there will be competitive prize singing by American glee clubs for a prize donated by a well known American citizen, for which clubs in the east and middle west have been invited to compete.

President Taft and Governor Hughes, with many other persons of prominence, have promised to attend the festival. Two of the five judges of the principal events are Germans appointed by Emperor William.

WILL BE SCRAP FOR BLOOD

Family Reasons to Make the Attell-Neil Fight Interesting.

San Francisco, June 19.—Today's scrap between Monte Attell and Frankie Neil will be fought as much for blood and the satisfaction of a grudge as for the cash at stake. The two boxers have had it in for each other for some time owing to family reasons. Neil has been trimmed several times by Abe Attell, the featherweight champion, who is a brother of Monte, and has announced his intention of getting even by licking Monte.

Fight followers generally think that Neil is a has-been, and is due for another whipping. The fight is scheduled to go twenty rounds.

Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

Dr. Pierce's Golden Medical Discovery

Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes *insist* that *he* knows what the proffered substitute is made of, but *you* don't and it is decidedly for *your* interest that *you* should know what *you* are taking into *your* stomach and system expecting it to act as a curative. To *him* its only a difference of profit. Therefore, *insist* on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

Behind Dr. Pierce's Medicines stands the Invalids' Hotel and Surgical Institute, at Buffalo, thoroughly equipped and with a Staff of Skilled Specialists to treat the more difficult cases of Chronic diseases whether requiring Medical or Surgical skill for their cure. Write for free INVALIDS' GUIDE BOOK.

Send 31 one-cent stamps to pay cost of mailing *only* on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, cloth-bound. Address: World's Dispensary Medical Association, R. V. Pierce, M. D., Pres., Buffalo, N.Y.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack **the vital organs,** causing catarrh of the **bladder,** brick-dust or sediment in the **urine,** head ache, back ache, lame back, dizziness, sleeplessness, nervousness, **or the kidneys** themselves break down **and waste away** cell by cell.

Bladder **troubles** almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it.

Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels, (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nervine. For weak worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

In Sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by J. Zeller & Son.

SLAYER OF SIGEL GIRL ESCAPES

New York Missionary Murdered By Chinese Convert.

FATHER IDENTIFIES BODY

Love Letters to Oriental Found In Room With Body Showed Miss Sigel Was Infatuated With Him—Police Searching For Murderer.

New York, June 21. — Leon Ling, with his string of English-Chinese aliases and his American clothes, may never be found, but the mutilated body of the New York girl left behind in a trunk in his room here will not be buried in Potter's Field. Paul Sigel, the father, claimed and positively identified the body at the morgue, admitting for the first time that the victim was his daughter Elsie, twenty years old, who was a missionary among the Chinese.

The girl's mother, now in a sanitarium, had previously identified the jewelry; another woman had identified the underclothing, and relatives had said that the murdered girl was Elsie Sigel, granddaughter of General Franz Sigel.

Will Ascertain Cause of Death.

Elsie Sigel's stomach is in the hands of the Columbia university professors, who will make a chemical analysis of its contents. Although the murder is supposed to have been committed in the room of a Chinese convert at 782 Eighth avenue, on Wednesday, June 9, the exact cause of her death has never been ascertained. While the autopsy determined that death probably was due to asphyxia, whether she was choked, smothered under a pillow or drugged, bound with ropes and left to die horribly in the trunk, is as much a mystery as is the whereabouts of Leon Ling and his pal, Chung Sing.

Aside from the positive identification of the body there were few developments in the case here. Chu Gain, manager of the Port Arthur restaurant in Chinatown, who was detained as a material witness, was held without bail. He has admitted that he knew Elsie Sigel well and had incurred the enmity of Leon Ling, and that both he (Chu Gain) and the girl had been threatened with death.

Theories as to exactly how and why the girl was murdered are plentiful. One woman, Mrs. E. Smith, who professes to have known the family well, even suggests that the victim is not Elsie Sigel, but a mysterious "Nellie," who has figured in Leon Ling's love affairs. Mrs. Smith holds that it is possible she and the Chinaman were preparing to elope when "Nellie" appeared, created a scene and was killed. The substitution of the clothing and the packing of the body into the trunk complete the feminine Sherlock Holmes theory.

Elsie Sigel's cousin Mabel was not a bit unwilling to talk, and she told, with apparent frankness, all she knew about Elsie's liking for professing Chinamen, and about Elsie's going away from home on the morning of Wednesday, June 9.

But Mabel wished it distinctly to be understood that "she wasn't mixed up with any Chinks."

"Elsie and me weren't the same; no, not a little bit," said Mabel. "I ain't been going round with any Chinks, I'll have you know that. I ain't got no use for 'em."

Captain Carey, of the bureau of homicide, will not permit the mass of letters found jumbled with Bibles and pictures of ballet girls in that strange room, where gorgeous embroideries draped an iron hospital pallet, to be published.

Reproached Leon Ling.

Some of the longer ones reproached Leon Ling for coldness toward a girl that loved him, but many held no hint that she doubted the Chinaman's affection. On the contrary, they glowed warmly with assurances of her own devotion. There wasn't a word or a syllable in one of them which might point the way to understanding how Elsie Sigel came to her death in the low-ceiled, grimy room above the chop suey shop.

There is just one letter of the many found in the room of William Leon, otherwise Leon Ling, that gives a clear view of this tragedy, and all the other material contained so far. It reads as follows:

"You seem to be growing cold to me. Just think of the sacrifice I have made for you—my family, my friends. For God's sake, don't forsake me!

"ELSIE."

"BUTTERFLY BUD" BECOMES A BRIDE

Philadelphia, June 21.—Owing to the recent death of James W. Paul, Jr., the banker, of this city, the marriage today of his daughter, Miss Mary Astor Paul, to Charles A. Munn, Jr.,

MARY ASTOR PAUL.

of Washington, was celebrated with extreme simplicity, although the bride is a member of one of this city's most prominent families and the bridegroom's family is very well known socially in Washington.

Todays' bride is the famous "butterfly debutante" of the winter of 1907-8. For her coming out her father brought from Brazil and Peru 500 live butterflies, which were released at the ball given in honor of his daughter's debut. It was estimated at the time that the expense of bringing out Miss Paul amounted to $100,000. The bridegroom is a brother of Miss Carrie Munn, who was reported engaged to Theodore Roosevelt, Jr., in the spring of this year.

The ceremony was performed in St. Martin's church, Radnor, and was witnessed only by the immediate families and a few intimate friends of the bride and bridegroom. Mr. Munn is a senior in Harvard, and the young couple will occupy a house near the university until he completes his course. Later they will reside near Philadelphia.

DAYTON HONORS WRIGHT BOYS

Two-Day Celebration In Home City For Brothers.

DECORATED WITH AEROPLANES

Every Person Wears Some Token of Aerial Navigation and Vehicles Are Decorated to Look Like Aeroplanes. Medals to Be Presented by Nation, State and City.

Dayton, O., June 17.—Dayton today began the most unique celebration ever held in an American city. The occasion is the opening of the two-days' celebration in honor of Wilbur and Orville Wright. The city, proud of being the Wright brothers home, will endeavor to make the event of national interest. Vehicles are decorated to look like aeroplanes, airships rest on the tops of high buildings as if posed for flight, and every persons wears some token that the era of aerial navigation is at hand.

After a salute of cannon a unique ceremony took place. A character representing Jonathan Dayton, founder of the city, dressed in the costume of a century ago, welcomed the aviators home from their triumphs, and trumpeters perched on tall buildings in various sections formally announced to the world that man-flight is an accomplished fact. Parades of troops, through streets spanned by triumphal arches will be followed tonight by a display on the Miami river, and the achievements of the Wright brothers will be pictured in fireworks.

The presentation of medals by the nation, state and city will occur tomorrow. Governor Judson Harmon, of Ohio, will present the state medal, while that authorized by congress will be presented by General James Allen, chief signal officer of the army.

Daytonians are wondering whether the Wrights at the ceremony will "respond" as called for by the printed program. It is said on a former occasion Wilbur Wright got out of a similar situation by making a "speech" as follows:

"Gentlemen—The only bird that talks is a parrot, and he is not a good flier."

Yesterday the Wrights held a family reunion. Among those present were Bishop Milton Wright, the father, and two other brothers, Loren, a workman in the Wrights' aeroplane shop here, and Reuclin, owner of a dairy farm at Tongonoxye, Kansas. Miss Katherine Wright, the sister, has entered into the celebration with zest, having relieved her brothers of many social arrangements.

Philadelphia, June 17.—Accused of embezzling the funds of the State Mutual Building and Loan Association of New Jersey, former Judge E. Ambler Armstrong, president of the defunct company, faced trial before Judge Joline in the Camden county criminal court.

One indictment charges Armstrong with embezzling sixty-five shares of the Atlantic Electric Light and Power company, of the value of $6500, with intent to defraud the building association. SCHAEFFER IS GUILTY

Jury Convicts Him of Murder of Jewelry Salesman.

Allentown, Pa., June 19.—The jury in the case of George N. Schaeffer, accused of the murder of Leapold Ermann, brought in a verdict of guilty in the first degree.

The dismembered body of Ermann, who was a jewelry salesman of Philadelphia, was found under the floor of Schaeffer's brooder house, Schwenksville, and the evidence against the prisoner was purely circumstantial.

Schaeffer collapsed and sank into a chair. It was necessary to carry him into an ante-room, where he was revived. The court room was crowded when the verdict was announced, but there was no demonstration.

London, June 21.—It is reported here that the engagement will soon be announced of August Belmont and Eleanor Robson, the actress, and that the marriage will take place in Europe this summer. It is impossible at the moment to confirm the report.

Monte Attell Now a Champion.

San Francisco, June 21.—Monte Attell knocked out Frankie Neil in the eighteenth round of a scheduled twenty-five round battle at Coffroth's arena. The contest was for the bantamweight championship of the United States.

Life.

The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist, for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work, bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, rundown, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abounding. We are glad to say these words in its favor to the readers of our columns.

Trolley Line For Bellefonte.

For the last six months there has been much speculation and agitation with reference to the building of a trolley line from Lewistown to Bellefonte. At first it was considered as a joke but it has since devoloped into a stern reality, and every indication points to the fact that in about two years from now the line between these two places will be in operation. Thursday the entire stock of the Mifflin County Gas & Electric company was purchased by the Utilities Corporation of Philadelphia. This is practically the same corporation that under the name of the General Utilities Company of New Jersey purchased the stock of the Lewistown and Reedsville Electric Railway Company one month ago. This deal, as in the former one, was consumated through the firm of Dodge & Day, Philadelphia, who are the agents for the Weightman estate.

It is the general opinion that Lewistown will become the centre or hub of a network of trolley lines that will interlace the entire central part of the state. The Hydro plant at Warrior Ridge is designed to furnish the electrical power for light, heat and manufacturing purposes through the Juniata Valley. It is the opinion publically expressed that these rights are being purchased under various titles and at the grand merger it will be found there will be through trolley lines for local passengers service to any point in the state. The extension of the present line from Reedsville to Bellefonte, via the Seven Mountains, a distance of twenty-six miles, will be one of the first improvements. A park and summer resort will be located at "Foust's Tavern," a favorite in stage coach days and located in the heart of the mountains. It is said that some time in the near future a representative of the company will be in Bellefonte for the purpose of securing a franchise for one or two of the principal streets.

Baby Without Arms

On Sunday night Dr. M. A. Kirk, of Bellefonte, made a professional call to the home of James Kelley, who resides at Valleyview, along the mountains, above Coleville. At that time a little girl was born into the household which is a great curiosity and goes on record as being the most helpless babe ever born in this county or perhaps in Central Pennsylvania. The child is perfectly developed except that it has no hands and its arms extend only down to the elbow. It is also minus feet, its legs only extend to its knees. The left leg has several toes which spread out like a webfoot. The child is in perfect health, and the indications are that it will be healthy and strong outside of its deformities.

The only cause that can be assinged for this strange coincident is that the mother became terribly frightened last February when Garbrick's store burned which threatened the destruction of the entire little village. This is the second child in the family, the first being sound in every way. Mr. and Mrs. Kelley are very nice people, and the birth of the child has caused them to come into considerable prominence during the last week, as a large number of persons have visited their home to get a glimpse of this oddity in the shape of a human being.

To Have a Club House.

The Bradford lodge of Elks is actively engaged in the raising of a sum of money from the members to enable them to close the negotiations now pending for the purchase of the Berry property on Congress street, to be used as an Elks club. The deal when consummated will give to Bradford a club property that will be on a par with the best clubs in the country, a feature of which will be the parlors and dining room, for the use of the ladies, and private dining room. The Elks hope to be installed in their new home in time so that they may assist in the entertaining of visitors during Old Home Week.
